-- SUPERSTORE SALES & REVENUE ANALYSIS --

=====

Revenue Metrics

1. Total Revenue

```
SELECT SUM(Total_Revenue) AS Total_Revenue FROM  
E_Commerce_sales_data;
```

	Total_Revenue
▶	1451015.00

2. Shipped Revenue

```
SELECT SUM(Total_Revenue) AS Shipped_Revenue FROM  
E_Commerce_sales_data WHERE Status="Shipped";
```

	Shipped_Revenue
▶	887097.00

3. Pending Revenue

```
SELECT SUM(Total_Revenue) AS Pending_Revenue FROM  
E_Commerce_sales_data WHERE Status="Pending";
```

	Pending_Revenue
▶	270411.00

4. Cancelled Revenue

```
SELECT SUM(Total_Revenue) AS Cancelled_Revenue FROM  
E_Commerce_sales_data WHERE Status="Cancelled";
```

	Cancelled_Revenue
▶	293507.00

Order Metrics

1. Total Orders

```
SELECT COUNT(Order_ID) AS Total_orders FROM E_Commerce_sales_data;
```

	Total_orders
▶	1000

2. Pending Orders

```
SELECT COUNT(Order_ID) AS Pending_orders FROM E_Commerce_sales_data
WHERE Status="Pending";
```

	Pending_orders
▶	195

3. Cancelled Orders

```
SELECT COUNT(Order_ID) AS Cancelled_orders FROM E_Commerce_sales_data
WHERE Status="Cancelled";
```

	Cancelled_orders
▶	200

4. High Value Orders

```
SELECT COUNT(Order_ID) AS High_Value FROM E_Commerce_sales_data WHERE
Order_Type="High Value";
```

	High_Value
▶	594

Regional Revenue Performance

1. Region wise total revenue

```
SELECT Region, SUM(Total_Revenue) Region_wise_total_revenue FROM
E_Commerce_sales_data GROUP BY Region;
```

	Region	Region_wise_total_revenue
▶	East	299997.00
	Central	310901.00
	North	280164.00
	West	304410.00
	South	255543.00

2. Product Performance by Order Status

```
SELECT status, COUNT(Order_ID) Product_Performance_by_OrderStatus FROM
E_Commerce_sales_data GROUP BY status;
```

	status	Product_Performance_by_OrderStatus
▶	Shipped	605
	Pending	195
	Cancelled	200

3. Sales Representative Performance

```
SELECT Sales_Representative, SUM(Total_Revenue)
Sales_Representative_Performance FROM E_Commerce_sales_data GROUP BY
Sales_Representative;
```

	Sales_Representative	Sales_Representative_Performance
▶	Bob	232701.00
	David	246156.00
	Alice	243346.00
	Charlie	267497.00
	Eve	237731.00
	Frank	223584.00

4. Category Revenue & Order Performance

```
SELECT category, SUM(total_revenue) AS revenue FROM E_Commerce_sales_data
WHERE category IN ('Electronics', 'Accessories', 'Peripherals', 'Gaming')
GROUP BY category ORDER BY revenue DESC;
```

	category	revenue
▶	Electronics	1258224.00
	Peripherals	77596.00
	Gaming	66600.00
	Accessories	16456.00

INSIGHTS

Q1. Which region is generating the highest revenue?

Ans. Central region generates the maximum revenue i.e. 21.43% while south region needs to be investigated as it has the lowest revenue i.e. 17.65% of total revenue. Management should study the market shift or competitor moves in this region

Q2. Which category is performing strongest?

Ans. Electronics category has significantly contributed to the revenue while accessories category is struggling very hard. Management should run quality tests for this category.

Q3. Are there products with unusually high Pending or Cancelled orders?

Ans. Orders of 'Gaming Headsets' are cancelled very highly. Management need to examine the website for any issue regarding the order cancellation also orders for 'Keyboard' are most pending, management need to verify from logistics team for full summary report for these products.

Q4. Which Sales Representatives are generating the most High Value revenue?

Ans. Charlie is the most high value employee of the company contributing 18.44% of the total revenue alone. Management should give him a raise as he is the most valuable asset of the company.

Q5. What business area should management investigate further?

Ans. Management should investigate the South region's low revenue performance and the operational issues behind high pending and cancelled orders, particularly for Gaming Headsets and Keyboards. The South region contributes the lowest share of total revenue at 17.65%, while Gaming Headsets have unusually high cancellations and Keyboards have the highest number of pending orders. These issues could indicate problems with demand, logistics, product availability, or the ordering process and should be investigated further.
